Summary

Experienced full stack developer and Marketing graduate. With my current employer declared insolvent, looking for exciting and rewarding opportunities which provide a technically challenging environment with the potential for growth in the role. My current role see's me fix bugs with varying degrees of complexity, from front end styling to API and database errors. Currently working with React, React Native for IOS and Android, Typescript, MYSQL, deis, Sublime Merge, Node, Insomnia and Express. My professional background has given me experience of React with both Classes and Hooks. My flexibility and communication skills have enabled me to utilise the experience of working for a software agency and grow as a developer.

Technical Skills

JavaScript, Node.JS, React.JS, React Native, Next.JS, TypeScript, MongoDB, Command Line, CSS, Docker, JQuery, Bootstrap, Express.JS, MySQL, HandleBars, Jest, Tailwind, Sequelize.

Development Experience

Support Developer

Univers Labs   *From:* May 22- November 22   *Based:* Oxford, Hybrid Work

- *Sophisticated diagnostician, with the technical understanding to interpret, isolate and resolve bugs over a variety of frameworks and interlinked technologies*
- *My communication and time management saw a significant improvement in our ability to rapidly resolve tickets/bugs.*
- *Professional experience of TDD in front end and back end systems for a bespoke software agency.*

Projects

Portfolio

Source Code: https://github.com/G-bot987/NextPortfolio

Deployed: portfolio-g-bot987.vercel.app

Summary: A professional portfolio giving a synopsis of my career, skills, future goals and hosting some of personal projects. A project that highlights some of my front end skills, designed to serve as a digital CV and to give perspective employers and recruiters a better gauge of who I am and the roles I'm interested in.

Technologies: Next.JS, TypeScript, Tailwind, TS.Particles

Tech-Blog
Source Code: https://github.com/G-bot987/TechBlog
Deployed : https://dry-eyrie-85153.herokuapp.com/
Summary: A full stack application, that allows users to log in, create posts, amend them and comment on other users posts. The platform is designed to allow tech enthusiast to reach out to others to either provide assistance or ask for it. Future developments will include more social functionality for networking and staying in contact.
